POLICY

1. School profile

Mildura Primary School (MPS) is one of four large primary schools in the Mildura Rural City Council local government area. It has a long history of service to the community. The school has benefited from all students coming together on one campus (2012) with the completion of major BER infrastructure projects which provided 6 new classrooms, new library facilities, a half-sized Gymnasium, Art, Music, Physical Education and Canteen facilities. The school has access to adjacent substantial local government facilities and clearly takes great pride in how it presents to the community.

The school currently has an enrolment of about 360+ students. Class sizes are between 18 – 25 students. MPS has a Student Family Occupation (SFO) index of 0.87 and a Student Family Occupation Education (SFOE) index of 0.75 confirming a profile of family poverty and disadvantage which is compounded over generations. A high proportion (up to 30%) of children entering the school has significant learning delays. These children are of school age without the necessary pre-cursors for successful learning. There is significant student transience. The significant mobility provides additional challenges and requires close monitoring and early assessment of student needs.

The multi-cultural student population comprises of a third Koorie students, 90 Islander students and others from a range of cultural backgrounds including Turkish, Sudanese and Afghani. There are 20 students (with 6 more currently with an application for funding) funded under the Program for Disabilities (8.1% against the Victorian average of less than 3%). They are supported by additional staff employed for the purpose.

The low SES promotes a perception from some sections in the broader community of the school being a poor performer in some key areas compared to others. The improvements in student learning and in the overall school climate evident over the last few years challenge these perceptions. Nevertheless, they persist in some quarters.

MPS leadership comprises the Principal, 2 Assistant Principals, and 2 Leading Teachers in charge of AIP priorities and units coordination. There are 18 classroom teachers; Specialists in Art, Physical Education and Performing Arts; two reading recovery teachers; and additional staff to support coaching and students learning, including 11 Educational Support staff.

The school has two Assistant Principals who work closely with the parent community, as does the Principal who interviews the parent/carers of each child seeking enrolment.

The Koorie and Islander workforce work closely with the community building strong relationships between the families and student access to quality education.

A Total Learning Centre and Connected Beginnings Site is located at MPS. The school's success at working closely with all the elements of its community, and the broader community, is an outcome of priority attention, planning and action.

The Total Learning Centre for preschool students and their parents will be heavily supported by our Koorie and Tongan Educators throughout the year. Through this we hope in the long term to have Preps who are better prepared for school.

The aim of the Connected Beginnings program is to support the integration of early childhood, maternal and child health, and family support services with schools in a number of disadvantaged Indigenous communities so that children are well prepared for school. Over

time, this will contribute to reducing the disparity in school readiness and educational outcomes between Indigenous and non-indigenous children.

The proposed project aims to further build on the successful work of the Total Learning Centre and adding to the space a conduit for families to access health and family support services. Through connections and collaboration with our community the project will provide access and support to access services that will wrap around the families of Mildura to improve their health and build skills to function in the community. The goal is to empower members of the community to build knowledge, skills and understanding to work with each other and create a sustainable positive outcome for all.

The project will bring together many of the services that stand alone in the Mildura area and work with members of the community to give them directions and access to these services. The common outcome being to provide families and children aged 0 to 5 years of age with the help needed to have school ready children by the age of 5 years. Often children and their families need help with occupational therapy, regular doctor check-ups, and speech support. The project will also provide access to preschools and ensure young children are attending regularly to benefit from the early years' programs provided.

As a Stronger Smarter School, we promote the ability for our community to be Strong in the Heart and Smart in the head! Through a culture of 'High Expectations' for all, Mildura Primary is a calm and focused environment where children are happy and highly engaged in their learning.
